

## Every Sister is a VIP (Very Important P.E.O.) SUMMER 2021

### July

#### Suggested activities

- ★ Invite a Master Gardener to a virtual social to share tips and answer questions. Invite area unaffiliates and inactive members along with a special invite to nonresident members and prospective members.
- ★ Plan a social outing in a park and invite unaffiliates living in your area along with inactive members and women you want to introduce to your chapter. Make a special effort to involve your nonparticipating members. Provide rides for those who need assistance getting to meetings.

### August

#### Suggested activities

- ★ Gather together in person or virtually and create an indoor herb garden. If meeting as a group, bring your own pot, dirt, and herb seeds. Many herbs grow well inside such as basil, bay, chives, and oregano. Share your seeds with your sisters and watch your garden grow.
- ★ If your chapter starts the P.E.O. year in September, August is the time to plan a yearbook unveiling party. Weather permitting, meet outside and have grab bags with the yearbook and some star or daisy stickers for the calendar to mark P.E.O. meetings. Talk about the theme for the year and have some fun.

### September

#### Suggested activities

- ★ Get to know your sisters a little better by taking turns at a virtual meeting/social naming the city and state or province where you were living when you became a P.E.O.
- ★ Gather in person or virtually with your chapter sisters and invite your inactive members and guests. Have each participant bring a clear water or wine glass and get ready to have some fun painting marguerites on your glass. Paint brushes, primer and acrylic paint are all you need to create these sunny flowers. Did you know marguerite is the French word for daisy? Learn more about the marguerite and share your facts with your sisters as you paint.
